Skills

Technical Skills: Python, JavaScript, FastAPI, AI, Machine Learning, Deep Learning, RESTful API Development, Data Analysis, Software Engineering

Tools & Technologies: Git, Docker, Tailwind CSS, HTMX, Version Control, Containerization

Soft Skills: Problem Solving, Collaboration, Agile Methodologies, Communication

Professional Experience

Example Position

Example Company | United States | 1999 – Present

- Led the development of scalable web applications using Python and JavaScript, improving system performance by 30%.
- Designed and implemented RESTful APIs with FastAPI, enabling seamless integration with frontend and third-party services.
- Collaborated with cross-functional teams to deliver AI-driven solutions, enhancing product capabilities and user experience.
- Utilized Git and Docker for version control and containerization, streamlining deployment workflows and reducing bugs by 25%.

Projects

Auto Resume AI

github.com/anywaifu/auto-resume

- Developed an AI-powered resume generator leveraging FastAPI, Tailwind CSS, and HTMX, reducing resume creation time by 50%.
- Implemented machine learning algorithms to optimize resume content for applicant tracking systems (ATS), increasing visibility for users.
- Integrated modern frontend technologies to enhance user experience and responsiveness across devices.
